Today's Green Deals are being led by yet another new Lectric release, as the brand launches its XPeak 2.0 Off-Road e-bikes for pre-order with \$365 in free gear – all starting from the first-generation's \$1,399 price tag. Next we have Black Friday savings on Samsung's Bespoke AI Combo All-in-One Electric Washer and Ventless Heat Pump Dryer starting from \$1,700, along with an array of other Bespoke smart appliance deals. NIU has begun its full Black Friday event on its KQi series e-scooters, with the KQi3 Max Electric Kick Scooter back at its \$599 low. Lastly, we're seeing the second-ever discount on Govee's new Smart Electric Composter that has dropped the price down to \$260. Plus, all the best hangover Green Deals from last week are in the links at the bottom of the page, like yesterday's Black Friday savings on UGREEN's three PowerRoam stations, Segway Ninebot e-scooters, and more.

Head below for other New Green Deals we've found today and, of course, *Electrek*'s best EV buying and leasing deals. Also, check out the new *Electrek* Tesla Shop for the best deals on Tesla accessories.

Lectric launches upgraded XPeak 2.0 off-road e-bikes with \$365 in free gear starting from \$1,399

Hot on the heels of last week's new release of the XPedition 2.0 Cargo e-bikes, Lectric is back again this week with the launch of its new XPeak 2.0 Off-Road e-bikes for pre-order, with both standard and long-range models coming with \$365 in free gear.

What's best, prices for these new models are starting off at the same rates as the predecessors, with the standard High-Step and Step-Thru models coming in at **\$1,399 shipped**, while the Long-Range High-Step and Long-Range Step-Thru models are a little higher at **\$1,599 shipped**. These new models will begin shipping the week of December 30, 2024. Head below to learn more about these new e-bikes or check out our launch coverage.

Coming in two colorways, Lectric's four XPeak 2.0 e-bikes are cruising into view with some significant upgrades, like the new torque sensor that pairs with the brand's PWR+ tech for even more responsive PAS, which works alongside the 750W Stealth M24 rear hub-motor (which peaks at 1,310W) to support riders up to a max speed of 28 MPH. The standard models' 15Ah semi-integrated battery provides a travel range of up to 60 miles on a full charge, while the long-range models' new 20Ah battery extends that range up to 80 miles.

There's been some additional structural upgrades here too, with a new hydroformed aluminum frame, a higher-end RST Renegade front suspension fork with blacked-out fork stanchions for a much sleeker and stealthier look, as well as lock-on hand grips, a larger 203 mm front disc for the hydraulic mineral oil brakes – plus, a new color LCD display too. Continued features include the 8-speed Shimano Altus derailleur, puncture-resistant knobby tires, hidden cable routing, accessory mounting points, removable pedals, and a thumb-throttle for pure electric riding. With the included bundle packages, you'll also have the option to add on a rear cargo rack, fenders over both wheels, an Elite 850-lux headlight, an accordion-style folding bike lock, and a suspension seat post for more comfort when heading off the beaten path.

Lectric XPeak 2.0 e-bikes come with \$365 in free gear:

- XPeak 2.0 Standard High-Step Off-Road e-bike: **\$1,399** (Reg. \$1,764)
- XPeak 2.0 Standard Step-Thru Off-Road e-bike: **\$1,399** (Reg. \$1,764)
- XPeak 2.0 Long-Range High-Step Off-Road e-bike: **\$1,599** (Reg. \$1,964)

- XPeak 2.0 Long-Range Step-Thru Off-Road e-bike: **\$1,599** (Reg. \$1,964)

You can also still grab the first-generation XPeak Step-Thru Off-Road e-bike with \$781 in free gear (including an extra battery for 100+ miles of travel) for as long as supplies last.

Save up to \$1,700 on Samsung's Bespoke all-in-one electric washer/ventless dryer from \$1,700 during Black Friday sales, more

Samsung's ongoing Black Friday event is offering some amazing chances to score the brand's Bespoke appliances at some of their lowest rates, like the AI Combo All-in-One Electric Washer & Ventless Heat Pump Dryer for **\$1,899 shipped**. Along with your purchase, you'll also be getting some bonus savings with a \$100 exclusive credit towards future purchases, a 2-year Samsung Care+ warranty at \$1 (normally \$150), and free installation (worth \$25) – valued at \$275 (\$1,700 in total savings). Normally this washer/dryer unit would run you \$3,324 at full price, with the biggest discounts we've seen direct from Samsung taking costs down to \$1,999 in 2024. You can also save even more with open-box options at **\$1,519** (find the option on right side of page). We also spotted this same model at Best Buy currently discounted to **\$1,700 shipped**, though keep in mind that this deal doesn't give you the \$275 in additional savings with the credit/Care+/free install.

Samsung's Bespoke AI Combo arrives as an ENERGY STAR-certified all-in-one unit that is supported by powerful AI smart tech to help you manage your laundry routines with increased efficiency. The AI allows it to identify different fabric types that are

placed inside and adjust its settings according to the detected soil levels. The detergent tank here sports a much larger capacity, holding up to 47 loads worth of detergent so you don't have to regularly worry about filling and refilling in between laundry loads – plus, it also has a Flex One compartment that takes that convenience to the next level as it can be split between 25 loads of detergent and 34 loads of softener.

Of course, one of its most praised features is right in the name – the ventless heat pump design. Not only does it give you far more freedom when placing it in your home (you'll no longer be bound to areas with a dedicated vent like with standard models), but the dual-inverter heat pump tech significantly increases its energy efficiency by working with the AI system to calculate and predict your electricity costs to "reduce energy usage by up to 19%." It's also been given self-cleaning and self-drying tech to keep laundry coming out fresh, smart controls via the SmartThings app (as well as hands-free voice controls too), the EPA's seal of approval, and much more. Head below to learn about the rest of what this appliance can bring to your home.

More Samsung Black Friday Bespoke appliance deals:

- Bespoke Jet Cordless Stick Vacuum with All-in-One Clean Station: **\$550** (Reg. \$700)
 - Built-in All-in-One Clean Station, multi-stage filtration
- AutoRelease Smart Dishwasher: **\$699** (Reg. \$1,299)
 - StormWash+, Smart Dry, and 42 dBA whisper-quiet operation
- 6.0 cubic-foot Smart Slide-In Gas Range Oven: **\$1,099** (Reg. \$2,144)
 - Air Sous Vide, Air Fry
- 29 cubic-foot 4-Door Flex Refrigerator: **\$3,299** (Reg. \$4,999)
 - AI Family Hub, AI Vision Inside, Beverage Center
- And **much more...**

You can check out the entire lineup of Samsung's Bespoke Black Friday savings by following the link here.

NIU's full Black Friday sale increases savings on KQi series e-scooters up to 64% off with new lows – deals from \$179

NIU has launched its full Black Friday sale through November 29 that is increasing discounts from its early-event sale, now taking up to **64% off** its lineup of KQi-series electric scooters, like the KQi3 Max Electric Kick Scooter that is down at **\$599 shipped**. This model is often priced at \$999 most of the time, with most of the sales we've seen coming direct from NIU dropping the price around \$750, though we did see it fall to \$599 back in July in the brand's parallel sale to Amazon's Prime Day event. Today, you're looking at a second chance opportunity to score this powerful commuter solution with a \$400 markdown that returns costs to the all-time lowest we have tracked. You'll also find it matching in price at Amazon.

One of NIU's more powerful e-scooter models that offers plenty of bang-for-your-buck mileage, the KQi3 Max's 608.4Wh battery provides an impressive 40 miles of travel range while the 450W motor hits top speeds of 23.6 MPH (when unlocked from the companion app) – plus, it comes with plenty of peak power to conquer up to 25% inclines, which beats out a large pool of popular models on the market. It sports a triple braking system with regenerative brakes that recycle energy to extend your electrically assisted journey, complete with self-healing tires should you find yourself venturing on questionable terrain. It also comes stocked with a high-powered halo headlight, brake light functionality, and a full array of smart

controls that include the unlocking of its higher speeds and security locking for added peace of mind and security.

NIU's full Black Friday sale deals:

- KQi1 Sport Electric Kick Scooter: **\$179** (Reg. \$499)
 - 15.5 MPH for up to 15.5 miles
- KQi Youth Electric Kids Kick Scooter: **\$180** (Reg. \$299)
 - 10 MPH for up to 7.1 miles
- KQi 100P Electric Kick Scooter: **\$250** (Reg. \$350) | matched at Amazon
 - 17.4 MPH for up to 18 miles
- KQi 100F Foldable Handlebar Electric Scooter: **\$350** (Reg. \$449) | matched at Amazon
 - 17.4 MPH for up to 18 miles
- KQi2 Pro Electric Kick Scooter: **\$399** (Reg. \$649)
 - 17.4 MPH for up to 25 miles
- KQi3 Pro Electric Kick Scooter: **\$479** (Reg. \$799) | matched at Amazon
 - 20 MPH for up to 31 miles
- KQi3 Sport Electric Kick Scooter: **\$600** (Reg. \$699)
 - 17.4 MPH for up to 24.9 miles
- KQi 300P All-Terrain Suspension Electric Scooter: **\$650** (Reg. \$899) | matched at Amazon
 - 20 MPH for up to 30 miles
- KQi 300X All-Terrain Suspension Electric Scooter: **\$800** (Reg. \$1,199) | matched at Amazon
 - 23.6 MPH for up to 37.3 miles

- KQi Air Electric Scooter: **\$950** (Reg. \$1,499) |
matched at Amazon
 - 20 MPH for up to 31 miles
- KQi Air X Lightest Electric Scooter: **\$1,399** (Reg. \$1,899)
 - 20 MPH for up to 31 miles

Save \$240 while getting nutrient-rich soil with Govee's new Smart Electric Composter at \$260

Through its official Amazon storefront, Govee is offering the second-ever discount on its new Smart Electric Composter that brings the price down to **\$259.99 shipped**, after clipping the on-page \$100 off coupon and redeeming the on-page 10% off promo code **SEZOUABS**. Down from its \$500 full price, we saw this new smart device hit the scene one month ago, with its first discount dropping immediately, bringing costs down by 50% to what is now its all-time \$250 low rate. Today, you're looking at a slightly lesser combined 48% markdown that still saves you \$240 on this all-new upgrade for your kitchen and home life. As I first pointed out back in October, and continuing even now, this model still hasn't shown up on Govee's direct website yet either.

Composting is becoming a bigger and bigger trend we're seeing in homes across the country as folks are trying to do their part in reducing food waste while simultaneously keeping it out of landfills, improving their own gardening soil, and more. This Smart Electric Composter from Govee helps you keep track of your disposal routines with detailed records, giving you the low-cost chance to add more nutrients to your gardening soil at home. All its settings and functions can be monitored and controlled through the

companion app – plus, you can even go hands-free with voice controls by connecting it with Alexa, Google Assistant, or Siri. It offers three operating modes to choose from with a bunch of safety notifications sent straight to you should something go wrong. The best part is, there are no odors to worry about thanks to the two interchangeable filters that prevent the usual decomposition smells that naturally occur during the composting cycle.
